RECOGNITION OF PRIOR LEARNING

Where a student wishes to apply for the recognition of prior learning on the basis of certificated or experiential learning, they should follow the Solent University RPL procedure: Academic Handbook Section 2H, Recognition of Prior Learning and Credit Transfer. Credits obtained by students taking the University of London International Programme can apply to be transferred to this degree programme.

AIMS OF THE PROGRAMME

The study of Art History enables students to acquire knowledge and understanding of the cultural and historical role of works of art, architecture and design. The discipline trains students to look closely at art objects, to consider in terms of their physical and aesthetic values, to decipher the visual or symbolic codes embedded within them and to seek out and understand the historical and cultural contexts that produced them. To do this, it is necessary for students to develop the following knowledge, understanding and skills.

KNOWLEDGE AND UNDERSTANDING

The programme aims to:

- demonstrate with confidence, a broad appreciation and enjoyment of the visual arts;
- enable students to acquire and develop a knowledge base and understanding of art in both historical and contemporary periods;
- provide students with the opportunity to study the art of more than one society or culture;
- foster a systemic understanding of the cultural and historical circumstances which shape the production, use and value of artefacts in the societies for which they were made;
- give a deep understanding of the physical properties of art objects, the technical processes involved in their production and the circumstances of their consumption;
- develop skills in visual and critical analysis;
- enable students to select appropriate methodologies for the identification and critical assessment of art objects;
- enable students to select appropriate methodologies for the evaluation and

deployment of visual, material and textual evidence in art historical arguments and narratives.

SUBJECT-SPECIFIC SKILLS

The programme aims to:

- enable students to develop the skills to observe, appreciate and evaluate art objects;
- enable students to describe and analyse artefacts and architecture with clarity and precision using appropriate specialist language;
- develop students' ability to situate an art object within its social, historical and cultural context;
- introduce students to critical, theoretical and historical writings on art and train them to use these methods in their assessment and analysis of art objects;
- develop intellectual independence and research skills, including bibliographic skills;
- develop critical analytical skills in reading and evaluation of a wide range of primary and secondary source materials;
- develop the ability to gather, sift, select, organise and synthesise large quantities of evidence and present it coherently in both written and oral form.

TRANSFERABLE SKILLS

The programme aims to:

- foster independence of mind, self-discipline and initiative;
- develop the ability to gather, organise and deploy evidence, data and information, knowing where to identify, find, retrieve and sort such information, and how to evaluate its relevance and usefulness to the question at hand;
- develop the ability to express oneself fluently, clearly, and coherently in oral and written form;
- develop the students' skills in the deployment of visual material in the presentation of written and oral communication;
- develop intellectual integrity and maturity, and imaginative insight and creativity;
- develop the ability to work constructively in a group;
- prepare students for a wide range of careers and roles in society;
- enable Major students to progress to postgraduate studies in the field or a related area.

TEACHING AND LEARNING STRATEGIES

STRATEGIES

The Art History and English faculties make use of various teaching and learning strategies to provoke your interest, knowledge and skills in the courses being delivered. The delivery methods are:

- Individual tutorials (based on an assignment submitted by the student, with weekly diagnostic feedback on their progress)
- Lectures
- Group tutorials (involving student presentations)
- Seminars for small group discussion and object case studies
- Student presentations
- Informal discussion groups (including online discussion)
- Study visits to museums and historic buildings
- Close observation, demonstration and handling sessions
- Consolidation and revision workshops
- Examinations and examiners' reports
- Independent study and research

The style of teaching Art History with English at NCH exposes students to weekly lectures that capture their interest and excite their curiosity. These lectures are designed to allow interactivity and a short time of discussion and questioning (throughout or at the end of each lecture, as appropriate). Weekly one-to-one tutorials and additional presentation-based seminars enable unparalleled focus on the individual student, and prompt and encourage independent reading and research, and facilitate lively, structured discussion. Students receive detailed feedback on their formative weekly assignments, and ideas and arguments are approached from new angles and in new contexts so as to enable the consolidation and review of material.

The programme is designed to progress steadily over the three years, and develop students' conceptual sophistication through cumulative experience and knowledge. The third-year dissertation course will allow students to develop their thinking in collaboration with a supervisor.

RESOURCES

Study is supported by a Virtual Learning Environment, Moodle, where students can preview and download course descriptors, lecture handouts, reading lists, and supplementary materials. Students also have access to Senate House Library and online research resources, such as JSTOR.

Sample and/or past examination papers, as well as examiners' reports, are available, on Moodle, to help students understand what is expected of them.

WIDENING PARTICIPATION

The faculty is committed to widening participation in Art History both through outreach programmes and through a teaching environment that is inclusive towards a variety of backgrounds and learning styles. The faculty visits a wide range of schools, hosts open History

lectures, engages with mass and social media, and publishes in accessible formats. Members of the faculty are highly engaged with, and committed to, the public dissemination of their discipline. Individual tutorials, and the high staff-student ratio, are especially important to our ability to be inclusive towards a variety of backgrounds and learning styles. The faculty facilitates a wide range of academic and social events in which academics and students are brought together.

RESEARCH

The faculty aims to provide a lively, open, and interactive teaching environment, in which research and teaching are complementary. Teaching is allocated in line with research interests and expertise, and the faculty facilitates a wide range of academic and social events in which academics and students are brought together.

In addition to the specific digital literacy and research skills taught in the course Introduction to Art History, during the first term of each of the three years of the programme, the lecturer in one of the Art History courses makes a particular point of building the teaching of digital literacy and research skills into their lectures. The skills taught become more sophisticated in each successive year, eventually going into the fine details of referencing and the layout of a scholarly article as well as producing and presenting a paper with PowerPoint.

Students are taught research and digital literacy skills in two main ways:

- a) At the beginning of Michaelmas term of the first year, subject librarians at Senate House Library give College students inductions on the use of the Senate House Library catalogue, other library catalogues, and other electronic resources relevant to the study of Art History. Students need to know how to analyse their research topic when planning a literature search, identifying appropriate keywords, and alternative possibilities. They will be made aware of library databases that they can use to search for academic journal articles (such as JSTOR) and know how to use these databases effectively to find articles relating to their chosen keywords. Following their search, it will be necessary to evaluate the results and the quality and relevance of the articles critically. They will be made aware of the availability and value of other physical and online research tools. Students should also know how to access the online and in-person support available to them in this area, via Senate House Library.
- b) Part-way through the first half of Michaelmas term (once students have had some experience of writing weekly assignments and have acquired the appetite to improve their research skills), first-year students receive, in College, both College-wide and subject-specific briefings on basic digital literacy and research skills. These briefings are given as lectures, and are reinforced by summary documentation made available on Moodle.

ASSESSMENT

Assessment in Art History with English aims to examine:

- knowledge and understanding of different periods of art history;
- the ability to recognise, describe and contextualise art objects with appropriate art historical language;
- the ability to apply established critical approaches to the analysis of art historical issues;
- the ability to express oneself fluently, clearly and precisely in prose;

- the ability to express oneself with fluency and coherence whilst making a visual presentation;
- the ability to engage in a sustained piece of independent research;
- ability to express oneself fluently, clearly and coherently in prose;
- knowledge and understanding of key problems and debates;
- ability to reason rigorously, critically, creatively and autonomously.

Courses are assessed in a variety of ways, including:

- Examinations
- Coursework essays

[Appendix C](#) is the programme structure and assessment summary.

ASSESSMENT REGULATIONS

The assessment regulations are annexed to the College Assessment Policy, which can be found on the College [website](#).

STUDENT SUPPORT

DISABILITIES AND/OR SPECIFIC LEARNING DIFFICULTIES (SPLDS)

When students arrive they are asked to complete a Medical Disclosure Form, where they can list any medical conditions, disabilities and/or SpLDs and make a note of who can have access to this information. This data is managed and securely stored by the College. During Freshers' Week a number of talks and events are held which are designed to support and inform students with regard to mental health, disabilities, safety and learning support.

The Learning and Assessment Support Officer (LASO) meets with students soon after Freshers' Week to discuss their needs and help set up support systems both within the College (if appropriate) and externally. If requested by the student, the LASO will then arrange to meet with relevant academic staff to discuss the student's needs and the ways these might impact on their studies. If students request specific arrangements (for e.g. submission extensions, use of a laptop, special exam conditions, etc.) they are asked to submit approved medical documentation to Student and Academic Services.

If a student is undiagnosed but believes they may have an SpLD (e.g. Dyslexia) the LASO will help them to access support groups and assessment centres. If the assessment confirms an SpLD, the LASO will discuss further support options with the student and their tutors. The LASO is in contact with local dyslexia tutors for advice to the College or student referral. The College can help provide students with special learning equipment (e.g. coloured paper, reading pens, dictation software, etc.).

CAREERS EDUCATION, INFORMATION AND GUIDANCE

The College [Careers](#) Adviser will meet with each student in the first term, to work with the student to identify career goals and create a personal plan so that those goals might be realised on graduation. The College organises two employer evenings each year, where

potential employers are invited into the College to meet with the students. In addition, staff at the College source on an ad hoc basis internships and work experience opportunities which are then promoted to College students.

The College runs **LAUNCH**, which represents part of the NCH Diploma and has been designed in collaboration with the CBI – the Confederation of British Industry. This has been designed to develop the attitudes, behaviours and capabilities that will prepare students for the world of work. It consists of two substantial projects, where students are required to work in teams to address real world briefs, and weekly seminars covering financial literacy, negotiation skills, working in teams, writing and presenting and so on.

QUALITY EVALUATION AND ENHANCEMENT

AWARD STANDARDS

Every programme of study is developed and approved by the College’s Academic Board and then validated by Solent University.

REVIEW AND EVALUATION MECHANISMS

- Procedures are in place to assure the quality of the programme development, delivery, management, systematic monitoring and on-going review and enhancement of all of the College’s programmes. Enhancements are made as necessary to ensure that systems remain effective and rigorous.
- Annual programme reports are prepared in order to enhance individual programmes and to plan ahead.
- Annual Examiner reports are prepared by independent External Examiners to confirm that a programme has been assessed properly and meets the appropriate academic standards.
- Formal student feedback mechanisms consist of course surveys on a termly basis and the Student-Staff Liaison Committee.
- Informal student feedback is also valued by the College and this can take the form of students talking to their tutor or professional staff (Registrar, Student Wellbeing Coordinator, etc.).
