The role

We wish to appoint specialists in Metaphysics. Appointees will be flexible, able, and willing to be wide-ranging in their teaching and in their professional development. Preference may be given to candidates with active interests in the relationship of Metaphysics to one or more of the following areas: software and/or technology; employment contexts; diversity and inclusion. Preference may also be given to candidates who are able to contribute to teaching in other areas of Philosophy.

Core duties will include teaching, marking, and support of students on the level 5 and 7 courses on Metaphysics and others as appropriate, as well as wider educational and administrative duties.

We particularly encourage applications from those with an interest in innovative teaching, learning and assessment; those with experience of supporting a wide variety of students; and those belonging to groups underrepresented in UK higher education. We are open to appointing on a reduced fraction/job-share basis subject to our business needs.
