The role

The New College of Humanities at Northeastern wishes to appoint a full-time Assistant Professor (Teaching & Research) in Computer Science.

We wish to appoint a specialist in the field of Machine Learning, Data Science, or Artificial Intelligence (including, e.g., Natural Language Processing and Deep Learning). The appointee will conduct research that contributes to the College's burgeoning reputation in areas related to Artificial Intelligence, and builds on the University's strengths more generally, specifically in the UK context; and they will teach related courses at both undergraduate and postgraduate levels. Preference may be given to candidates with applied and/or interdisciplinary strengths.

Core duties will include research, teaching, marking, and support of students, as well as wider educational and administrative duties.

About the College

Founded in 2012, with the aim of providing the highest quality of education in the humanities and social sciences, New College of the Humanities at Northeastern has established itself as a prestigious higher education institution based in the heart of London. We offer a unique and broad liberal arts-inspired curriculum with highly personalised teaching, which may include tutorials. The College is undergoing an exciting period of growth, having become part of Northeastern University's global network in early 2019.
