

Student Hardship Fund Policy 2021

INTRODUCTION

1. The College maintains a small fund to support the maintenance of students who suffer an unexpected and unpredictable financial setback after matriculating, for example: a serious accident/illness preventing work for a period; destruction of uninsured property by flood or fire; non-payment of wages by an employer; being a victim of banking or credit card fraud. This list is not exhaustive but is intended to illustrate the types of serious and exceptional circumstances which would enable eligibility for a hardship award.
2. The Hardship Fund is intended to meet short-term, urgent needs and thus enable students to continue at the College when they could not otherwise do so without suffering significant hardship. The fund is not suitable for bridging a long-term shortfall between a student's income and expenses or to compensate for poor planning or lax money management; to comply with charity law, hardship must be real.

WHAT IS STUDENT HARDSHIP FUNDING?

3. The College's Student Hardship Fund provides limited discretionary financial support to matriculated undergraduate and postgraduate students who are experiencing sudden and unexpected financial difficulty and are unable to meet basic or unexpected additional costs from other sources of support. The fund can also offer limited support to students who have experienced a short-term change in financial circumstances due to unforeseen events.
4. The Student Hardship Fund is intended to act as a safety net for those in financial difficulty rather than a main source of income. The size of the fund is limited, and the financial support may not be able to meet the student's need in full. Nor can the College guarantee that funds will always be available; new applications will be rejected after the funds are exhausted. Awards are discretionary and are paid in the form of a non repayable grant.
5. The Student Hardship Fund cannot normally compensate for the lack of parental contribution. However, where evidence can be provided of a significant, unexpected and uncontrollable change in family circumstances, which has made it impossible for parents to provide the expected financial contribution, a student may be considered for an award.
6. Student Hardship Funding is not to be used to pay tuition fees or to pay for optional "extras", such as college organised trips.

STUDENT HARDSHIP FUND POLICY

7. Students are expected to have in place appropriate funding at enrolment to cover their tuition fees and living expenses for the duration of their study. This may be through an approved student loan, personal savings, work, scholarships or family contributions. In order to be eligible for hardship funds students must be able to demonstrate that they had in place reasonable financial arrangements and that their hardship is due to unforeseeable circumstances beyond their control.

PRIORITIES FOR ASSISTANCE

8. The maximum award payable is £500.
9. The College will prioritise the following students when deciding how to allocate funding:
 - 1.1. Students with children (especially lone parents)
 - 1.2. Students with caring responsibilities
 - 1.3. Students with disabilities
 - 1.4. Care leavers
 - 1.5. Estranged students

APPLICANT ELIGIBILITY

10. The Student Hardship Fund is open to undergraduate and postgraduate students. Apprentices and students studying on partner programmes (including programmes accredited by Northeastern) are not eligible to apply.
11. Before applying to the Student Hardship Fund students should have exhausted all other reasonable means of addressing their financial difficulties. The student must have applied for (if applicable) and received the maximum amount of statutory funding available i.e. maintenance loan to which they are entitled during the academic year. Students who choose not to apply for their full entitlement will not be eligible for an award from the Student Hardship Fund.

WHEN CAN STUDENTS APPLY?

12. Applications are accepted throughout the academic year. However, final year students must apply no later than the Friday of the fourth week of Trinity.

APPLICATION PROCESS

13. The Student Hardship Funding is means-tested. Applications must be supported by clear evidence that the student had in place reasonable arrangements to cover their tuition and living costs and that unforeseen and uncontrollable events have led to financial hardship.

STEP 1: PREPARING YOUR APPLICATION

14. Students will need to complete a Hardship Fund application form setting out their income and expenses for the year. The form will require them to explain what circumstances led to their current hardship. Students will need to provide three-month bank statements for all of their accounts with their application, these can be retrieved from online banking or requested from any branch of their bank.

Students will also be asked to provide a copy of their rental or other housing contract to evidence their main living cost.

15. Students with questions, or who want assistance with a hardship application, should make an appointment to see the Student Support Coordinator in Student Support and Development. Appointments can be booked online.

STEP 2: SUBMIT AN APPLICATION

16. If the student meets the eligibility criteria mentioned above, please complete and submit the application form with bank statements to Studentsupport@nchlondon.ac.uk. The application form can be found [here](#).

STEP 3: ASSESSMENT OF YOUR APPLICATION

17. Applications are assessed on the difference between accepted reasonable expenditure and expected income for the academic year. Student expenditure will be offset against their income and where there is a shortfall (additional need) for the year, an award will be considered from the fund. Where awards are granted, they may not cover the full extent of the student's financial need. In assessing student expenditure, there will be an expectation that students have exercised good judgment and taken all reasonable steps to budget and live within their means. Where excessive non-essential expenditure is visible applications may be rejected. Some examples of non-essential expenditure include: gambling; significant spending on recreational activities, deliveries, take-away food etc.

STEP 4: DECISION

18. Once the application has been reviewed, a decision is made by the Director of Finance and Head of Student Support and Development. The student will be informed of the outcome as soon as possible, normally within two weeks of submission of the application.

APPEALING A DECISION

19. A student can make an appeal against a Student Hardship Fund decision if they do not feel it is reasonable, because;
 - New information (which was not available at the time of the submission) has subsequently been made available.
 - There is evidence of bias or a reasonable perception of bias in the decision making.
20. When an appeal is submitted, the original application will be considered with the opportunity to provide further explanation or evidence.

HOW TO APPEAL

21. In order to make an appeal the original Student Hardship Fund application must have been fully assessed and the outcome decision communicated to the student, only then will the option to Appeal be available.
22. All applicants who wish to appeal must write a letter explaining their concerns about the Student Hardship Fund outcome to the Hardship Fund Appeal Panel at studentsupport@nchlondon.ac.uk within 10 working days of being informed of the decision.

23. The Hardship Fund Appeal Panel is:
- Chief Executive Officer (or nominee)
 - Director of Academic Services
24. The appeal letter will be considered alongside the original Hardship Fund application. If new additional documentation is provided, it must be accompanied by an explanation as to why it was not possible to include it with the original hardship fund application.
25. The Hardship Appeal Panel will normally conduct a paper only review of the decision- that is they will consider the documentation only. However, the Panel will have the authority to interview the student if they consider this to be necessary to fully understand the case. Students will normally be given 5 working days notice of a request to be interviewed by the panel. The Student Hardship Fund appeal will be considered as soon as possible and normally within three weeks of receipt of the appeal. The student will be informed of the outcome of the appeal as soon as the Panel has met and concluded their deliberations.
26. The decision of the Appeal Panel is final.
